"WAVES KEEP COMING, THAT' S THE ONE THING YOU CAN COUNT" –GERRY LOPEZ

Hawaiian Pro-Designs

"YOU CATCH ONE GOOD WAVE AND IT MAKES YOUR WHOLE DAY – HECK, IT MAKES YOUR WHOLE WEEK." – DONALD TAKAYAMA

Donald Takayama

THE BEST SHAPERS IN THE WORLD COME TO SURFTECH WHEN THEY NEED QUALITY, CONSISTENCY, AND INNOVATION.

Steve Walden

FUSION HD CONSTRUCTION

1. **FUSED CELL EPS CORE**
// Fused-cell EPS core provides more response + flotation
2. **CLEAR HD-EPOXY RESIN**
// Epoxy resin system with high thermo-mechanical performances
3. **FULL BIAX DECK PATCH (45° / -45°)**
// The Biax fiberglass distributes power + protects from dings
4. **HIGH-QUALITY E-GLASS FIBERGLASS**
// E-glass has the highest strength-to-weight ratio available
5. **WOOD STRINGER**
// Distributes power + adds pop + adds break strength
6. **HAND-FINISHED**
// Machine-shaped, hand-laminated, and hand-finished

FUSION PRO CONSTRUCTION

1. **FUSED CELL EPS CORE**
// Fused-cell EPS core provides more response + flotation
2. **CLEAR HD-EPOXY RESIN**
// Epoxy resin system with high thermo-mechanical performances
3. **FULL BIAX DECK PATCH (45° / -45°)**
// The Biax fiberglass distributes power + protects from dings
4. **HIGH-QUALITY E-GLASS FIBERGLASS**
// E-glass has the highest strength-to-weight ratio available
5. **CARBON STRINGER**
// Distributes power + adds pop + adds break strength
6. **HAND-FINISHED**
// Machine-shaped, hand-laminated, and hand-finished

CARBON CONSTRUCTION

[CARBON]

1. **FUSED CELL EPS CORE**
// Closed-cell EPS core provides more response + flotation
2. **CLEAR HD-EPOXY RESIN**
// Epoxy resin with high thermo-mechanical performances
3. **HIGH QUALITY CARBON FIBER**
// Carbon fiber has an unmatched strength to weight ratio among all engineered technical reinforcements.
4. **ULTRA FINE E-GLASS**
// Each board is capped in an ultra fine, lightweight layer of E-glass as a final protective seal

NATURAL FIBER CONSTRUCTION

1. **EPS CORE**
// Fused cell EPS core provides more response + flotation
2. **CLEAR HD-EPOXY RESIN**
// Epoxy resin with high thermo-mechanical performances
3. **NATURAL FLAX FIBER REINFORCEMENT**
// Flax fiber provides dampening to give the boards a natural feel. As well as being biodegradable and renewable.
4. **ULTRA FINE E-GLASS**
// Each board is capped in an ultra fine, lightweight layer of E-glass as a final protective seal.
5. **COLOR TINT**
// Beautiful resin tint for premium finish

DUAL-CORE CONSTRUCTION

1. **Fused Cell EPS Core (Dual-Core w/PU Rails)**
// Closed cell EPS core provides more response + Flotation
2. **Clear HD-Epoxy Resin**
// Epoxy resin system with high thermo-mechanical performances
3. **High Quality E-Glass Fiberglass**
// E-glass has the highest strength to weight ratio available
4. **Full Biax Deck Patch (45° / -45°)**
// The Biax fiberglass distributes power + protects from dings
5. **Pop-Flex Stringer (TPU)**
// TPU adds pop + feel / EVA adds dampening + feel
6. **PU Foam Rail Inserts (Dual-Core w/EPS Center)**
// PU rails adds drive in and out of turns + swing weight for airs
7. **Carbon Stringer**
// Distributes power + protects from dings + adds break strength
8. **Carbon Tail Patches**
// Distributes power to the fins + protects from toe/heel dings
9. **Patented Technology**
// An exclusive technology by Surftech

TUFLITE CONSTRUCTION

1. **Fused Cell EPS Core**
// Closed cell EPS core provides more response + Flotation
2. **GreenPoxy® Resin**
// The latest innovations in bio-based Epoxy chemistry
3. **2x Layers Fiberglass**
// E-glass has the highest strength to weight ratio available
4. **Micro-Sandwich Veneer**
// Wood Veneer creates natural flex + adds break strength
5. **Composite T-Stringer(s)**
// T-Stringers add power distribution + adds break strength
6. **Carbon Stringer**
// Distributes power + protects from dings + adds break strength
7. **Carbon Tail Patches**
// Distributes power + protects from dings + adds break strength
8. **Reinforced Rails**
// Fiberglass reinforced rails enhances performance + durability
9. **Exclusive Sandwich Technology**
// Surftech Tuflite boards are molded with exclusive methods

FUSION TRUERIDE CONSTRUCTION

1. **PU Core**
// High-density polyurethane core for performance and feel
2. **PE Resin**
// Advanced polyester resin for strength and flex
3. **6oz Fiberglass w/4oz Patch**
// E-glass has the highest strength-to-weight ratio
4. **Wood-Ply Stringer**
// Natural wood fibers creates a natural flex and adds break-strength
5. **FCS II Fin Boxes**
// Takes just seconds to insert and remove the fins
6. **Full Biax Deck Patch (45° / -45°)**
// Adds strength and durability plus tint creates a unique look
7. **Gloss and Polish Finish**
// High gloss finish to turn some heads on your paddle out

PRIMATEK CONSTRUCTION

- HIGH DENSITY EPS CORE**
// Lively response that distributes vibration equally for predictability
- CLEAR HD-EPOXY RESIN**
// Epoxy resin system with high thermo-mechanical performanc
- 1 X LAYER OF E-GLASS**
// Strong and resistant to denting
- 1 X LAYER OF BIAX GLASS**
// Gives multi-direction strength while maintaining a lively feel.

Whether you're a primitivist à la Gauguin or a minimalist like Mies Van der Rohe we know you believe the essence of a thing is it's true value and that kitsch accoutrement is for the birds. You know that real creative expression happens on the wave and what you need is great design and purist performance. Bienvenu à Primatek. By keeping the construction simple we've found our boards built in Primattek perform as an extension of surfers' instincts. Intuitively connecting your imagination and ability in a creative collision of a primal past and an ethereal future, Primatek is the blank slate and firm foundation for you to build your masterpiece.

Timmy Patterson is a renowned surfboard shaper who has made an indelible mark on the world of surfing.

Fueled by a desire to create the perfect surfboard, Timmy embarked on a lifelong journey of honing his skills and pushing the boundaries of design. With meticulous attention to detail and an unwavering commitment to quality, his boards have become sought after by surfers of all levels, from amateurs to world champions.

As a testament to his skill and contribution to the surfing world, Timmy Patterson's boards can be found under the feet of countless surfers who trust in his craftsmanship to enhance their surfing experience. With an unwavering commitment to excellence, Timmy continues to shape the future of surfboard design, leaving an indelible mark on the waves and the hearts of surfers worldwide.

"WHAT IS THE CHANGE GOING TO CREATE? THAT' S THE FUN OF IT." - Wayne Rich

Wayne Rich is a world-renowned surfboard shaper who has been designing boards for over 40 years. He is known for his progressive designs, attention to detail ,and quality craftsmanship. Surftech is honored to partner with Wayne to produce and distribute three models of surfboards built in two different constructions. The new boards, the Wildcard 3, the Singularity, and the Checkmate, are all proven designs built to perform in a variety of conditions, from small waves to large swells.

Born and raised in Hermosa Beach, CA Wayne began shaping under Dan Bendiksen at Bing Surfboards, from there he continued on to become part owner of Jacobs surfboards, and then eventually started his own label. Wayne is a 2x Boardroom show winner whose respect for tradition is only matched by his need to innovate.

"A RARE COLLECTIVE OF MILDLY DERANGED BUT HIGH-POWERED MISFITS"

Misfit Shapes represents an authentic response to an era of change, a 'surf' stemmed movement that allows art, design and individuality to co-exist within a realm more commonly dominated by conformity and observation. We are not bound by a single leader or manifesto, but rather a bold commitment to pushing the limits of this well-oiled machinery of surf. The result is a rare collective of mildly deranged but high-powered misfits, potentially dangerous cultural agitators, and just about every other kind of MAD MIND.

If this is all a bit too real, that' s fine, we can' t please everyone because if we did, we' d end up catching something. But if you are looking to escape the rotating door of normality, please, come inside.

NEW BOARD TAMAGO

RENAISSANCE 9'4"

RENAISSANCE 10'0"

"A RARE COLLECTIVE OF MILDLY DERANGED BUT HIGH-POWERED MISFITS"

Roger Hinds shaping career has spawned four decades and encompassed the multi-faceted evolution of the short board. From his early days of stripped down long boards during the transition era, to refining his skills under the tutelage of the likes of Ed Angulo, Jeff Edwards and Kent Smith. 70' s North Shore soul with Country Surfboards and Lightning Bolt and team riders spanning the era' s and all disciplines from Jock Sutherland and Mike Armstrong to Long board World Champions Rusty Keaulana and Taylor Jensen. Production shaping for the likes of Blue Hawaii, Russ K, Harbour, Hobie and Weber, as well as head shaper for Bear USA.

His attention to detail has lead to some of the most popular plugs for Clark Foam and US Blanks. He won of The Icons of Foam shape-off back to back in 2014 & 2015 at The Boardroom Show first honoring Ben Aipa then Rusty Preisendorfer. He came in second at the Ultimate Craftsman Project at the same show losing by only one tenth of a point. That same detail is reflected in start to finish shape, glass, color and polish of impeccable quality. Roger Hinds lives the art of surfboard construction. – Randy Rarick

"YOU CATCH ONE GOOD WAVE AND IT MAKES YOUR WHOLE DAY – HECK, IT MAKES YOUR WHOLE WEEK." – DONALD TAKAYAMA

Donald Takayama's legacy is a combination of the world's best boards, best surfers and best waves, making his boards some of the most sought after in the surfing world. Takayama was famous for his progressive designs that combined both traditional and high-performance aspects into every board made. As a result, the best surfers chose his boards to bring their surfing to the next level. Donald Takayama and Surftex worked together for over 20 years before his passing, with a relationship built on trust and a commitment to produce quality products that compliment the designs he so passionately created.

STEVE IS A SOFT SPOKEN BUT CONFIDENT ARTIST WHOSE WORK IS ROOTED IN PRAGMATISM. STEVE' S UNIQUE ABILITY TO MERGE CUTTING EDGE FEATURES WITH TIME TESTED DESIGNS TO CREATE USER FRIENDLY SURFBORDS THAT ALSO PERFORM AT HIGH LEVELS IS UNMATCHED.

Steve Walden shaped his first surfboard in 1961, at age 13, and never looked back. Eight years later, the native Southern Californian opened his first board factory and store in Huntington Beach, then moved to the North Shore of Oahu in 1972, where he made a name for himself as a prolific longboard shaper. While the rest of the surfing world was fixated on short single-fins, Walden continued to faithfully hone his longboard designs. Over the years he shaped for prestigious labels like Lightning Bolt, Local Motion, HIC, and Channel Islands, but it was always his own boards that set him apart. By the early 80s, Walden returned to California where he unveiled his wildly successful Magic Model with its radical rocker, down-turned rails, unique bottom curve & bevels, and super-fast bottom contour. With arguably the most advanced and high performance longboards on the market, Walden was uniquely positioned to capitalize on the resurgence of longboarding in the late 80s and 90s. To date, Walden estimates he' s personally shaped more than 20,000 boards. These days, when he' s not mowing foam, Walden is surfing. Though he competed some as a teenager, he returned to contest surfing at the age of 30 and has been a regular on the podium ever since. In fact, Walden still holds the record for the longest noseride in competition history with an epic 25.5-second ride.
