# SURFTECH

## 2026 PRODUCT

Surftech was founded in 1989, born out of a desire to unite shapers and surfers by utilizing new technologies and distribution methods. This unique relationship with the world's best shapers has always allowed Surftech to make performance-enhancing boards available to surfers of all abilities worldwide. We were the first to use advancements in technology to explore, establish, and embrace the connection between shaper and surfer. 30 years after we released Tuflite, forever changing the surf industry for the better, we're still leading the charge for watermen everywhere.

*Ben Aipa*  
- A LEGACY OF ALOHA -

"I WAS NEVER WATCHING WHAT OTHER BOARD BUILDERS WERE DOING... I WAS WATCHING THE SURFERS AND THE NATURAL WORLD AROUND ME. THEIR MOVEMENTS SHOWED ME WHAT WAS MISSING... I WAS ALWAYS LOOKING FOR THE NEXT WAVE... THE NEXT MOVE." - BEN AIPA

THE BEST SHAPERS IN THE WORLD COME TO SURFTECH WHEN THEY NEED QUALITY, CONSISTENCY, AND INNOVATION.

## TUFLITE PROFESSIONAL CONSTRUCTION

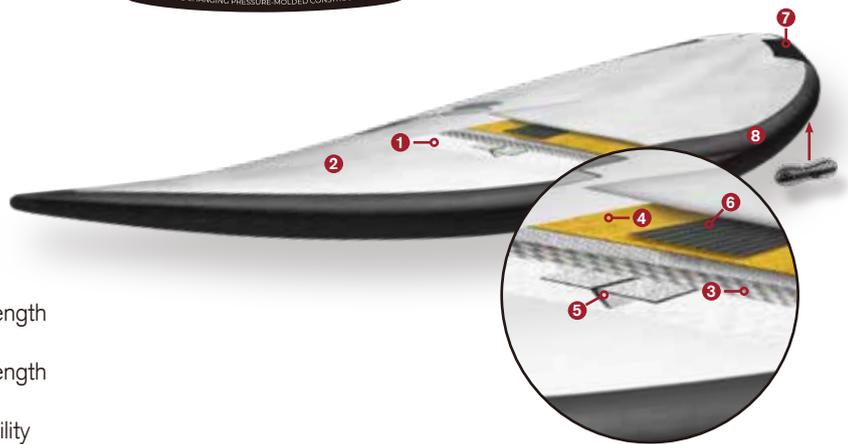

Professional-level quality should be available to all surfers. Tuflite Professional is the result of 35 years of testing and multiple iterations of Surftech's innovative molded construction. An ultra light fused core is molded for perfect replication of shape every time. The light core allows us to add extra protective layers and manipulate the flex of the board. The lay up consists of a high density deck and bottom layer inserted into a recess in the board, combined with unidirectional carbon rails plus multiple layers of e-glass and biaxial. The result is a drastic improvement in both break strength as well and impact resistance. The process of omega glassing, wrapping and overlapping the recess and rails of the board, is a feat of engineering allowing for added strength without adding weight. Tuflite Professional is the perfect blend of durability and engineered performance, built to elevate your surfing.
